PROFESSIONAL EXPERIENCE

Stealth Startup - Agentic Trading

July 2026

Design Engineer Consultant

Austin, TX

- Owned the 0-to-1 design and frontend build of a human-agent trading workspace for public launch.
- Advised the founding team on product direction, design, and marketing.

NextWork

June 2026

Design Engineer Consultant

Austin, TX

- Built a motion library using the Canvas API and Three.js to explain technical concepts to learners.

CBRE

June 2025 - August 2025

UX Designer (Contract)

Richardson, TX

- Designed and built SmartFM's 3D login experience across platforms with Three.js and Blender.

Motive

September 2023 - August 2024

Senior Product Designer

Remote

- Designed the 0-to-1 remote vehicle immobilization experience for Motive's first third-party hardware product. It helped unlock \$8M+ ARR in LATAM.
- Designed the dashboard and assignment workflows for Motive's Driver ID Reader hardware launch so exempt fleets could identify drivers.
- Built a fleet safety and maintenance product that saved \$500K+ annually for the largest fleet operator in the U.S.

Educative

September 2020 - September 2023

Design Lead III

Pakistan

- Joined Educative as the sole designer for 30 developers. Hired and led a team of 10 designers after Educative's \$12M Series A.
- Designed core consumer learning products as Educative grew from 500K to 2.5M users.
- Designed enterprise developer onboarding and engineering productivity products that closed a \$100K ARR contract.
- Built, implemented, and maintained a design system used by product, marketing, and content teams across six B2B and B2C SaaS products.

UXrally

December 2018 - September 2020

UX Designer

Pakistan

- Designed a digital nightlife app called GRID for Düsseldorf-based venues during COVID shutdowns.
- Analyzed Trivago's competitive positioning and redesigned the product to emphasize its role as a low-price hotel aggregator.

EDUCATION

The University of Texas at Austin

August 2024 - April 2026

Master's in Human-Computer Interaction

- Designed and built Capstone Matchmaker, a FERPA-compliant recruitment platform for 5 user groups across mobile and desktop. Shipped it in under 2 weeks.

Lahore Leads University

September 2013 - June 2017

Bachelor's in Software Engineering
