## PROFESSIONAL EXPERIENCE

### Stealth Startup - Agentic Trading

July 2026

Design Engineer Consultant

Austin, TX

- Built a human-agent trading workspace with Next.js, TypeScript, Zustand, and TanStack Query.
- Advised the founding team on product, design, and marketing strategy.

### NextWork

June 2026

Design Engineer Consultant

Austin, TX

- Built a motion library using the Canvas API and Three.js to explain technical concepts to learners.

### CBRE

June 2025 - August 2025

UX Designer (Contract)

Richardson, TX

- Designed and built SmartFM's 3D login experience with Three.js and Blender, creating a unified visual identity across platforms.

### Motive

September 2023 - August 2024

Senior Product Designer

Remote

- Designed the remote vehicle immobilization flow, helping unlock \$8M+ ARR in LATAM.
- Designed the dashboard and assignment flows for Motive's Driver ID Reader hardware launch, allowing exempt fleets to identify drivers.
- Built a fleet safety and maintenance product that saved \$500K+ annually for the largest fleet operator in the U.S.

### Educative

September 2020 - September 2023

Design Lead III

Pakistan

- Joined Educative as the sole designer for 30 developers. Hired and led a team of 10 designers after Educative's \$12M Series A.
- Designed core consumer learning products as Educative grew from 500K to 2.5M users.
- Designed developer onboarding and engineering productivity products that closed a \$100K ARR contract.
- Built and implemented the design system across 6 SaaS products.

### UXrally

December 2018 - September 2020

UX Designer

Pakistan

- Designed a digital nightlife app called GRID for Düsseldorf-based venues during COVID shutdowns.
- Analyzed Trivago's competitive positioning and redesigned the product to emphasize its role as a low-price hotel aggregator.

## EDUCATION

### The University of Texas at Austin

August 2024 - April 2026

Master's in Human-Computer Interaction

### Lahore Leads University

September 2013 - June 2017

Bachelor's in Software Engineering
