+1 (737) 389-0364 | hello@mstf.work | Austin, TX | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

EDUCATION

The University of Texas at Austin
Master's in Human-Computer Interaction

August 2024 - April 2026

Lahore Leads University
Bachelor's in Software Engineering

September 2013 - June 2017

PROFESSIONAL EXPERIENCE

CBRE
UX Designer (Graduate Internship)

June 2025 - August 2025

Richardson, TX

- Designed and built SmartFM's 3D login experience with Three.js and Blender, creating a unified visual identity across platforms.

Motive
Senior Product Designer

September 2023 - August 2024

Remote

- Designed the remote vehicle immobilization flow, helping unlock \$8M+ ARR in LATAM.
- Designed the dashboard and assignment flows for Motive's Driver ID Reader hardware launch, allowing exempt fleets to identify drivers.
- Built a native fleet safety and maintenance tool that saved more than \$500K annually for Motive's largest US customer by fleet count.

Educative
Design Lead III

May 2021 - September 2023

Pakistan

- Hired and led a team of 10 product designers following Educative's \$12M Series A.
- Designed core consumer learning products as Educative grew from 500K to 2.5M users.
- Led enterprise product design for developer onboarding and an engineering project management tool, helping secure a \$100K ARR enterprise contract.
- Built and implemented the design system across 6 SaaS products.

Educative
Product Designer II

September 2020 - May 2021

Pakistan

- Sole designer alongside 30 developers. Shipped Skill Assessments and Customized Learning Paths.
- Redesigned the Grokking the System Design Interview course page to make course material easier to read and understand.

UXrally
UX Designer

December 2018 - September 2020

Pakistan

- Designed a digital nightlife app called GRID for Düsseldorf-based venues during COVID shutdowns.
- Analyzed Trivago's competitive positioning and redesigned the product to emphasize its role as a low-price hotel aggregator.
